A Zombie Comic About Saving Humanity

Cultural Daily · Tuesday, October 22nd, 2013

It's a post-apocalyptic world, and zombies are part of society – sort of. With advancements in both science and technology, zombies are now able to be contained in special centers until a full cure is developed. Bridget, a young zombie, has miraculously demonstrated an ability to spontaneously regenerate into full human mode without the help of available medicine. There is hope for a cure after all...if only she hadn't somehow escaped the containment center.

With your help, the team behind Bridget can afford to produce a full-length comic detailing the exploits of one zombie heroine. Can Cultural Weekly readers help them reach their goal of \$3,500 by November 11th? [Head on over to their Kickstarter page](#) to watch their video and donate.
